Chair Paul Kahl called the meeting to order at 7:00 pm.

Business Item Discussion: The purpose of the meeting was to review, discuss and strengthen the County's current solar regulations as requested by the Board of County Commissioners (BCC) at a previous Joint Work Session. County Manager Heath announced that a public hearing would be held March 20th for a solar moratorium. Changing the 2 acre limit that distinguishes small scale solar from large scale solar was mentioned. More extensive discussions ensued about cash bonds, vegetative buffers, setbacks, limiting acres, limiting megawatts and mowing grass.

A minor digression occurred mid-stream where conversation turned to wind turbines and it was stated that the Chowan/Perquimans County line needs to be clarified before Apex starts building wind turbines next to it.

Chair Kahl adjourned the Work Session at 8:15pm.
